

Time to become
“The Smart Dentist”

Dental Practice Management Software

Dentsoftware

Dentsoftware is a leading Practice management software designed for a powerful management of dental clinics. Presently, with our integrated ERP dental software, we serve many dental clinics, corporates or colleges across the globe. The breadth of our dentistry and technical expertise would ensure a powerful software program that can make the dental clinic smart and paper free.

Speciality

An ideal solution for multi speciality practice. It is a customizable version available in both online and offline models. Wide array of modules are available to choose from.

Solo

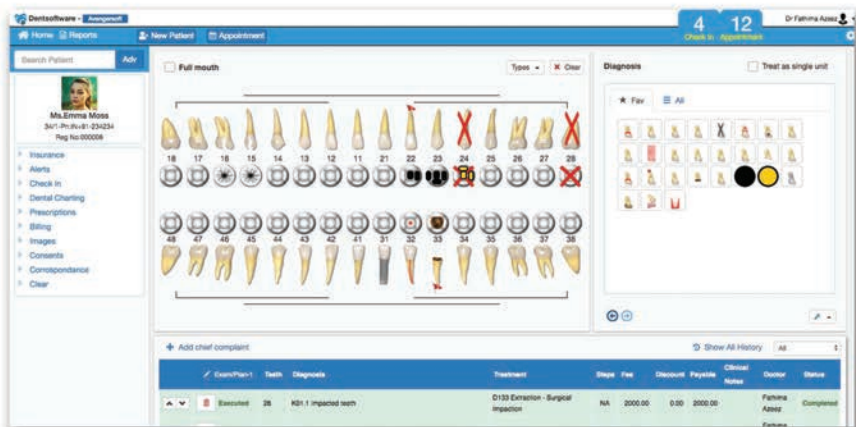

Its a miniature version of Dentsoftware, packed with essential features for a single doctor clinic. This cloud application empowers the dentist to a smart dentist

Corporate

Now forget the hassles of multi clinic management. The corporate version helps to manage your clinics remotely. It generates consolidated reports for a better overview of each clinic's performance

College

Make your campus smart with wifi enabled college version of dentsoftware. The college version is equipped with student and patient management modules.
